

# MPC4000 V1.15 Operating System Upgrade

This is to announce the release of V1.15 operating system for the MPC4000. The main purpose of the update is to add the following improvements:

## [Improvements/Additions:]

1. Loading of Sequence files when loading a folder. - supported.
2. Saving Phrase Library into Flash memory - supported.
3. In the Song mode, it will sync with external MIDI time code - supported.
4. SHIFT + BLOCK CURSOR up/down keys work as Page Up/Down keys in any list page.

## [Corrections]

1. The playing note won't stop when the Part is switched before receiving its note-off - *fixed*.
2. The files in its own drive cannot be drag & dropped into memory via akSys - *fixed*.
3. Sustain pedal occasionally may not work correctly, e.g. the sound may keep on playing back when the pedal is switched to OFF especially - *fixed*.
4. Other minor corrections.

## [Note]

No operator's manual addendum has been issued on this update.

*For information on how to obtain the upgrade, check the Akai web site at <http://www.akaipro.com>, or contact your authorized Akai distributor.*
